Cold Delicious
Bottled Water

that automatically refills itself

Self-filling Bottle
The patented EverFull™ Bottle from Pureit continually refills itself, so there are no expensive, heavy bottles to change.

Direct Water Connection
The bottle connects directly to your existing water source ensuring a continuous supply of water.

State-of-the-Art Treatment
Whether you choose our advanced filter systems or our premium reverse osmosis system, Pureit ensures clean and delicious tasting water — every time.

Substantial Costs Savings
Our economical rental programs can save you 1/2 to 1/2 off your current bottled water bill.

Gravity™ Filters
Whatever system you choose, our Gravity™ process protects your water against algae and bacteria build-up that can collect in conventional water bottles.

No Heavy Bottles or Clutter
Eliminates the inconvenience, potential injury from lifting 40 to 50 lb. bottles and wasted storage space.

Distributed by

A Pureit water filtration system with a blue EverFull bottle on top and a white base with two dispensing taps. Next to it is a small, compact water dispenser.

Coffee Services

You are our Priority!

We take great pride in ensuring our machines look as good as they perform. We adhere to strict cleaning and maintenance schedules to ensure reliability. All machines are monitored 24/7 by a state of the art remote monitoring system which tracks inventory levels and reports any malfunctions or jams. This system also greatly improves our ability to keep the machines restocked in a timely fashion with fresh, brand name products. *We're the only vending company in Central Arkansas using this technology and it has helped us dramatically improve our efficiency and take our already excellent level of customer service to an even higher level!*

"I guarantee that you will receive superb service and that your account will have my daily attention." -David Gee, Owner
